Next Competition is **Scramble i/c only**, Thorney Island, Saturday **14th June @ 11.30am**

EX Club chairman  
Graham Lloyd's

## Mojo

Wing span 54inch but I made mine 51 inch. Makes easy access to car  
Engine OS 46AX with 12x6 prop APC

Weight 4lb 12oz

Servos are cheap Hitec HS322

Throws are as much as you can get with 85 percent Expo

I built this model from a plan having purchased a set of wing ribs, a full kit of bits is available from [www.Swanyhouse.com](http://www.Swanyhouse.com). Take a look, he does some interesting models.

I am delighted with it's flying characteristics it's awesome does the book, flat spins inverted are dream. This is the fourth one I have built.

Derek Honeysett's Multiplex Solius made it's maiden flight on Saturday 31st May all went well. Although this plane is ready to fly just add battery and receiver, Derek spent some time removing the supplied decals and replacing them with his own to make the Solius more scale. He has also completely rehashed the cockpit and added an 'action man' pilot. The Solius's power source is a 2200 3cell LiPo and has a wingspan of 2.16meters

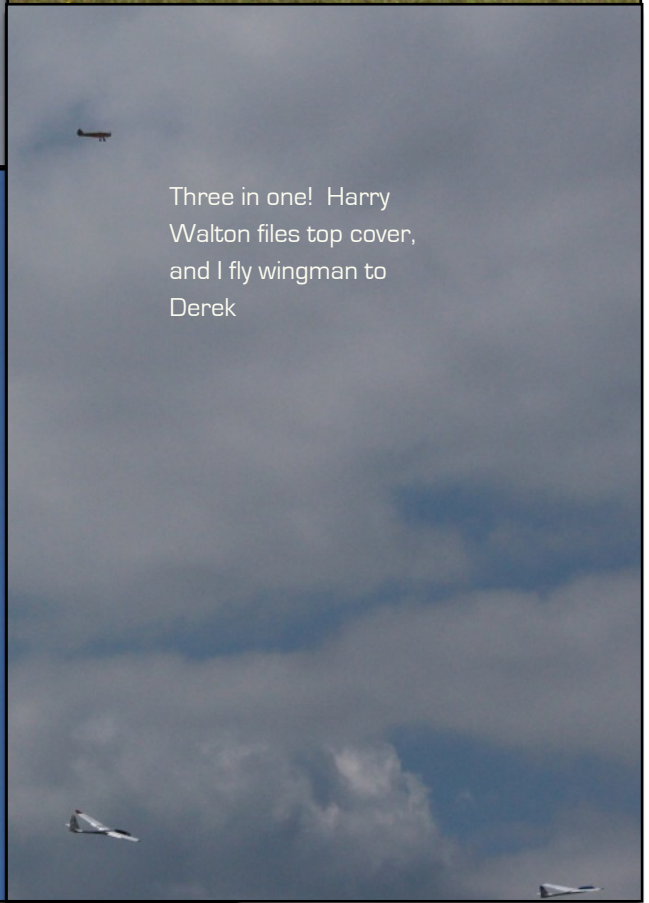

Peter Cronk spent most of the afternoon setting up his new Great Planes ? powered by a Saito 91 four stroke which flew well on its maiden flight

Toni Reynaud shown here with his nice DH Tiger Moth, which by the way flew very well but proved problematic to land as the wind speed rose.

Prompted by me, KK, Toni used my camera and took some good pictures some of which I have shown below

Three in one! Harry Walton files top cover, and I fly wingman to Derek

For all you budding

| Sunday November 9th     | 12.00 | Open glider fun day/ electric duration | Thorney Island in aid of Poppy day appeal |

### Committee meeting dates for 2014

1st July, 5th August, 2nd September, 7th October, 4th November and 2nd December

### Urgent Note to all Users of Porthole Farm

It is imperative that when entering and leaving the field **you must LOCK** the gate behind you irrespective of other people/vehicles still being there (i.e. Dog trainers) as the land owner has **INSISTED** that this be carried and is a fundamental clause in the use of the field.

Please Try to leave  
Porthole as tidy as  
possible making  
sure no fuel is left  
on site

When  
Driving  
Around Thorney  
be aware of young children  
on bikes

New Medical Emergency Information Cards have been produced to allow members to record personal information that would be useful in the event of illness or injury on our flying sites. They are not compulsory and will be issued to members by the Membership Secretary on request at club meetings.

#### **A REMINDER OF FLYING TIMES AT THORNEY**

**Saturdays and Sundays Only**

**10.30 Electric only (No Ducted Fans), 11.30 for Electric and IC.**

**No flying after 18:00 hours**

**Thorney may be closed for access and flying from time to time as per notices posted Clear Dope and on the web site**

**[www.cadmac.co.uk](http://www.cadmac.co.uk)**

#### **Pass system for Thorney Island.**

The process for gaining access to the Island will be through the collection of a temporary car pass via the Main Entry Point gate post which must be returned on exiting the establishment. Temporary passes will be issued for a vehicle and its occupants provided that:

- All individuals are registered on the Club's membership list as held at the gate post.
- All vehicles are road legal and details (Make, Model, VRN) held on membership list.
- All vehicle occupants provide photo identification (driving licence or passport) to cross-reference with membership lists on entry.
- Users accept vehicle searches on entry and departure.
- The vehicle and occupants only use and park at the facility of which they are a member: other areas of the Island remain out of bounds, and military personnel will challenge breeches and are empowered to remove passes and escort non-compliant personnel off the Island.
- It is an MOD and club requirement that all members visiting the Island carry with them the current Club and BMFA cards
